AIS 140 IRNSS certified device

FEATURES

- GPS, GLONASS & IRNSS based location services
- Quad band GSM / GPRS modem: 850 MHz / 900 MHz / 1800 MHz / 1900 MHz)
- Supports emergency button
- 5 Digital and 2 Analog input ports
- Power supply range of 7V to 40V DC
- Over voltage and reverse polarity protection
- Internal GPS and GSM antenna
- Location transmission over GPRS and SMS
- Device management through SMS and Cloud software
- Data transmission to 2 different servers
- Supports TCP, HTTP, FTP and custom protocols over TCP and UDP
- Supports embedded SIM
- Battery backup of 4 hours
- Firmware upgrade over the air (FOTA)
- Configuration updates over the air
- IP65 enclosure
- In-built 3-Axis Accelerometer
- In-built 3-Axis Gyroscope
- Device storage capacity of 40,000 data records
- Alerts based on events such as battery disconnect

PRODUCT DESCRIPTION

TRAKEZY AIS 140 is an indigenously developed, ARAI and C-DAC certified AIS 140 compliant Vehicle Tracking Device (VTD), that provides precise location, time, speed, distance and aimed at tracking applications.

TRAKEZY AIS 140 is a VTD with built-in GPS, GLONASS and IRNSS receiver which provides unmatched performance in terms of sensitivity. The GPS and GSM antennas are embedded within the enclosure thereby ensuring tamper-proof operation.
